PROFILE

Professional committed and persistent to achieve their goals, and with an unstoppable desire to learn and grow. I have experience in developing applications and web pages with different technologies, frameworks and libraries. I have experience not only as a front end developer, but also as a UI/UX designer.

PERSONAL EXPERIENCE

Redesign of the cetav web site. As part of my graduation project of the technician in web design and development, I worked on the design and development of the new website of the technical training center CETAV.
